

Community Legal Education

BGCLS offers Community Legal Education (CLE) throughout the region on a number of different topics including Family Law; Family Violence and Intervention Orders; Youth and the Law; and Life Planning.

This service is free to not-for-profits, educational facilities and community organisations.

BGCLS welcomes the opportunity to share information about our service with staff teams, client groups and network meetings.

BGCLS staff and volunteers are passionate about empowering clients, workers and the community about legal issues relevant to them. We also understand that sometimes not all information is taken in on the day, so we provide resources for clients and workers including information sheets and brochures for reading after we have finished the session.

To best meet your organisations needs, it is best to plan in advance (a minimum four weeks' notice is preferred).

To find out more or to book a workshop please contact us on 53315999 or email cle@bgcls.org.au.
